

Print Page3 on your paper piecing paper

Start piecing using the piecing order diagram on page 4

Make as many blocks as you need

You can put names or dates of just about anything on the top of the stocking or eave blank

This is a great item for using up your scraps of Christmas fabric.

Assemble either vertically or horizontally (the choice is yours)

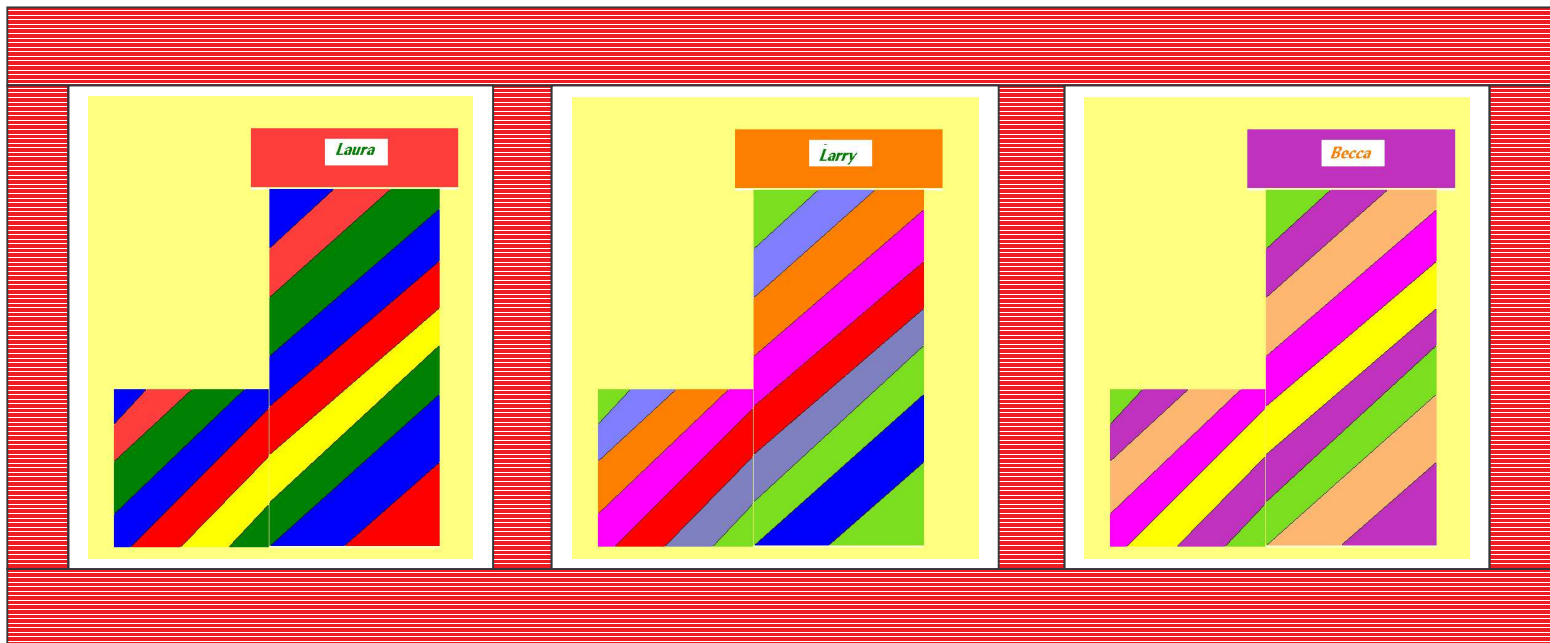

I used 2 ½” strips of coordinating solid fabric for the borders

Sandwich your top with a lightweight batting and backing of muslin or a coordinating fabric. (I use muslin only because you don't see the backing)

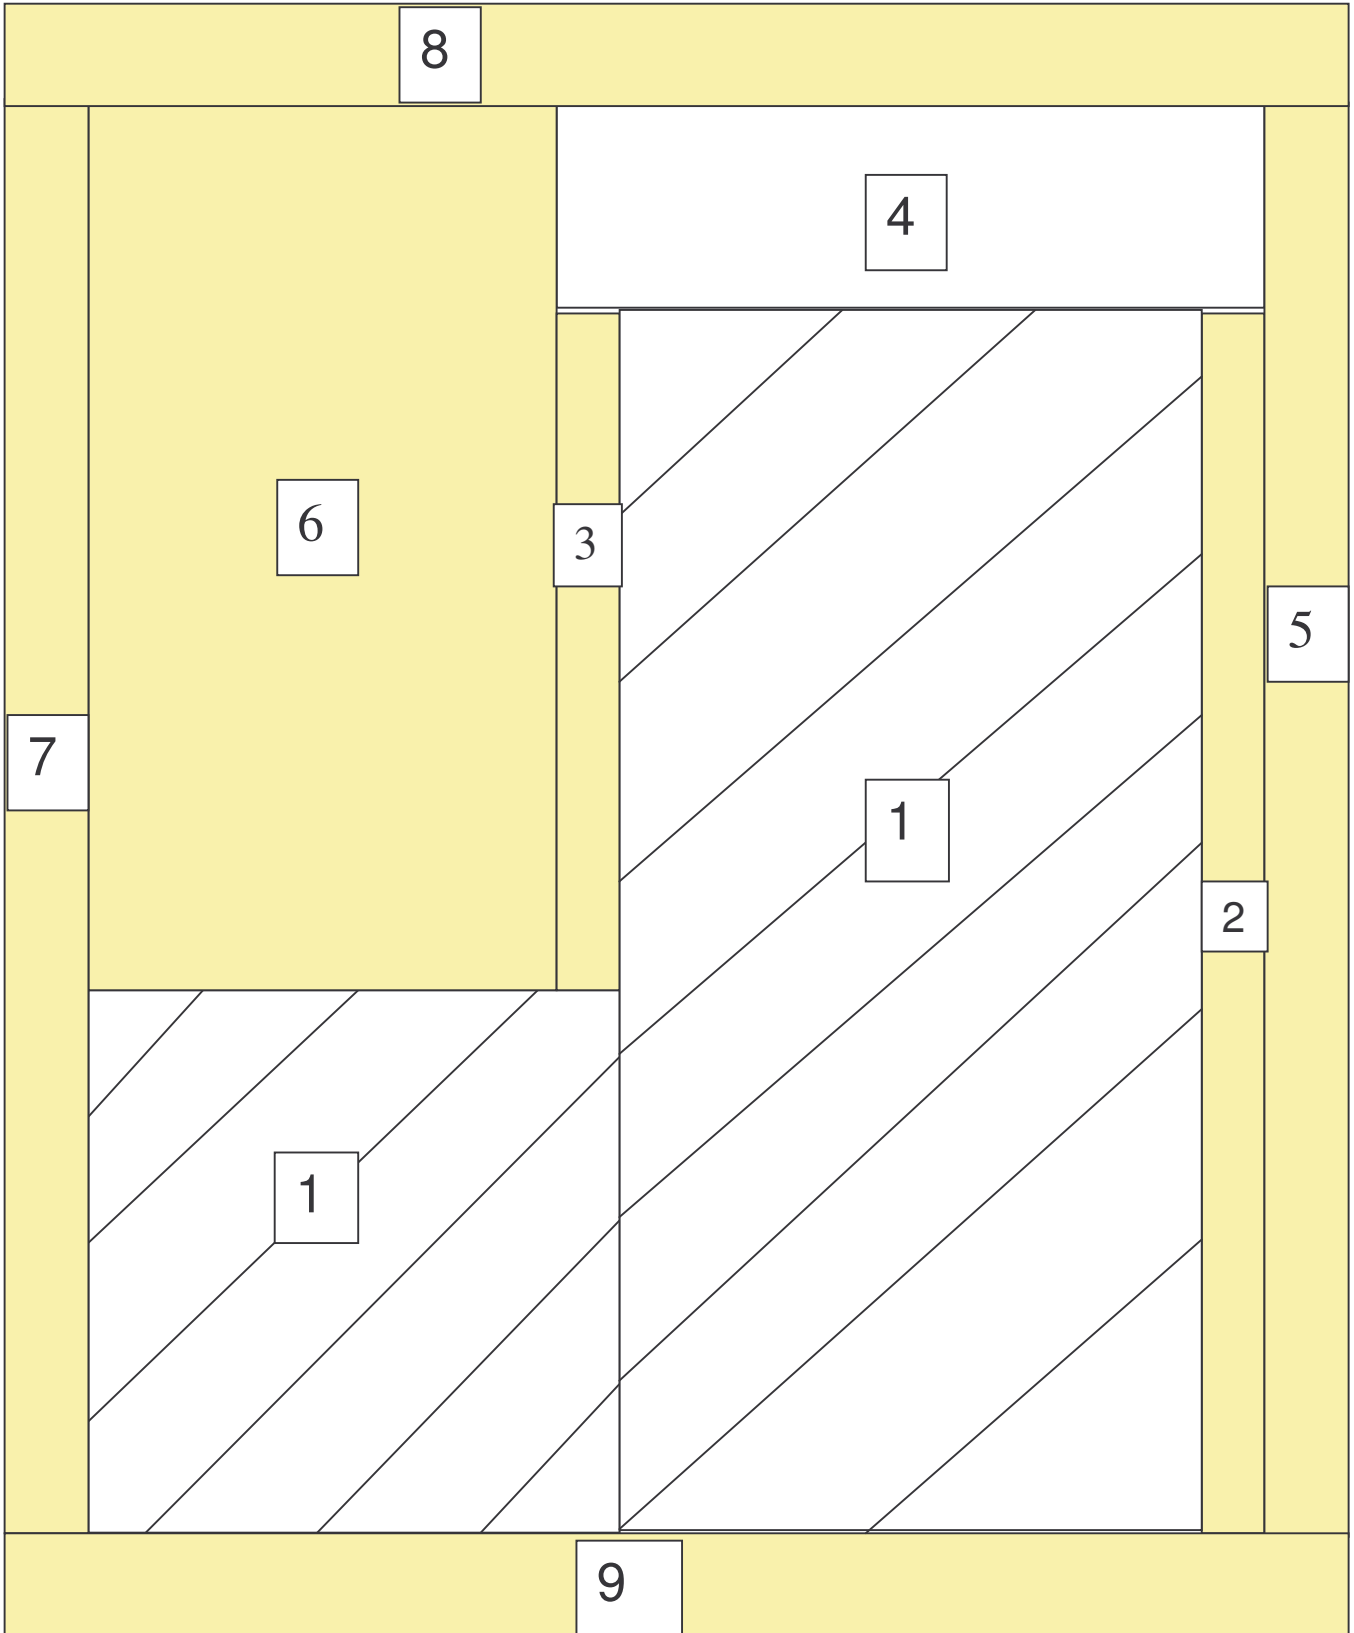

I sew using the quick turn method.

Quilt in the ditch

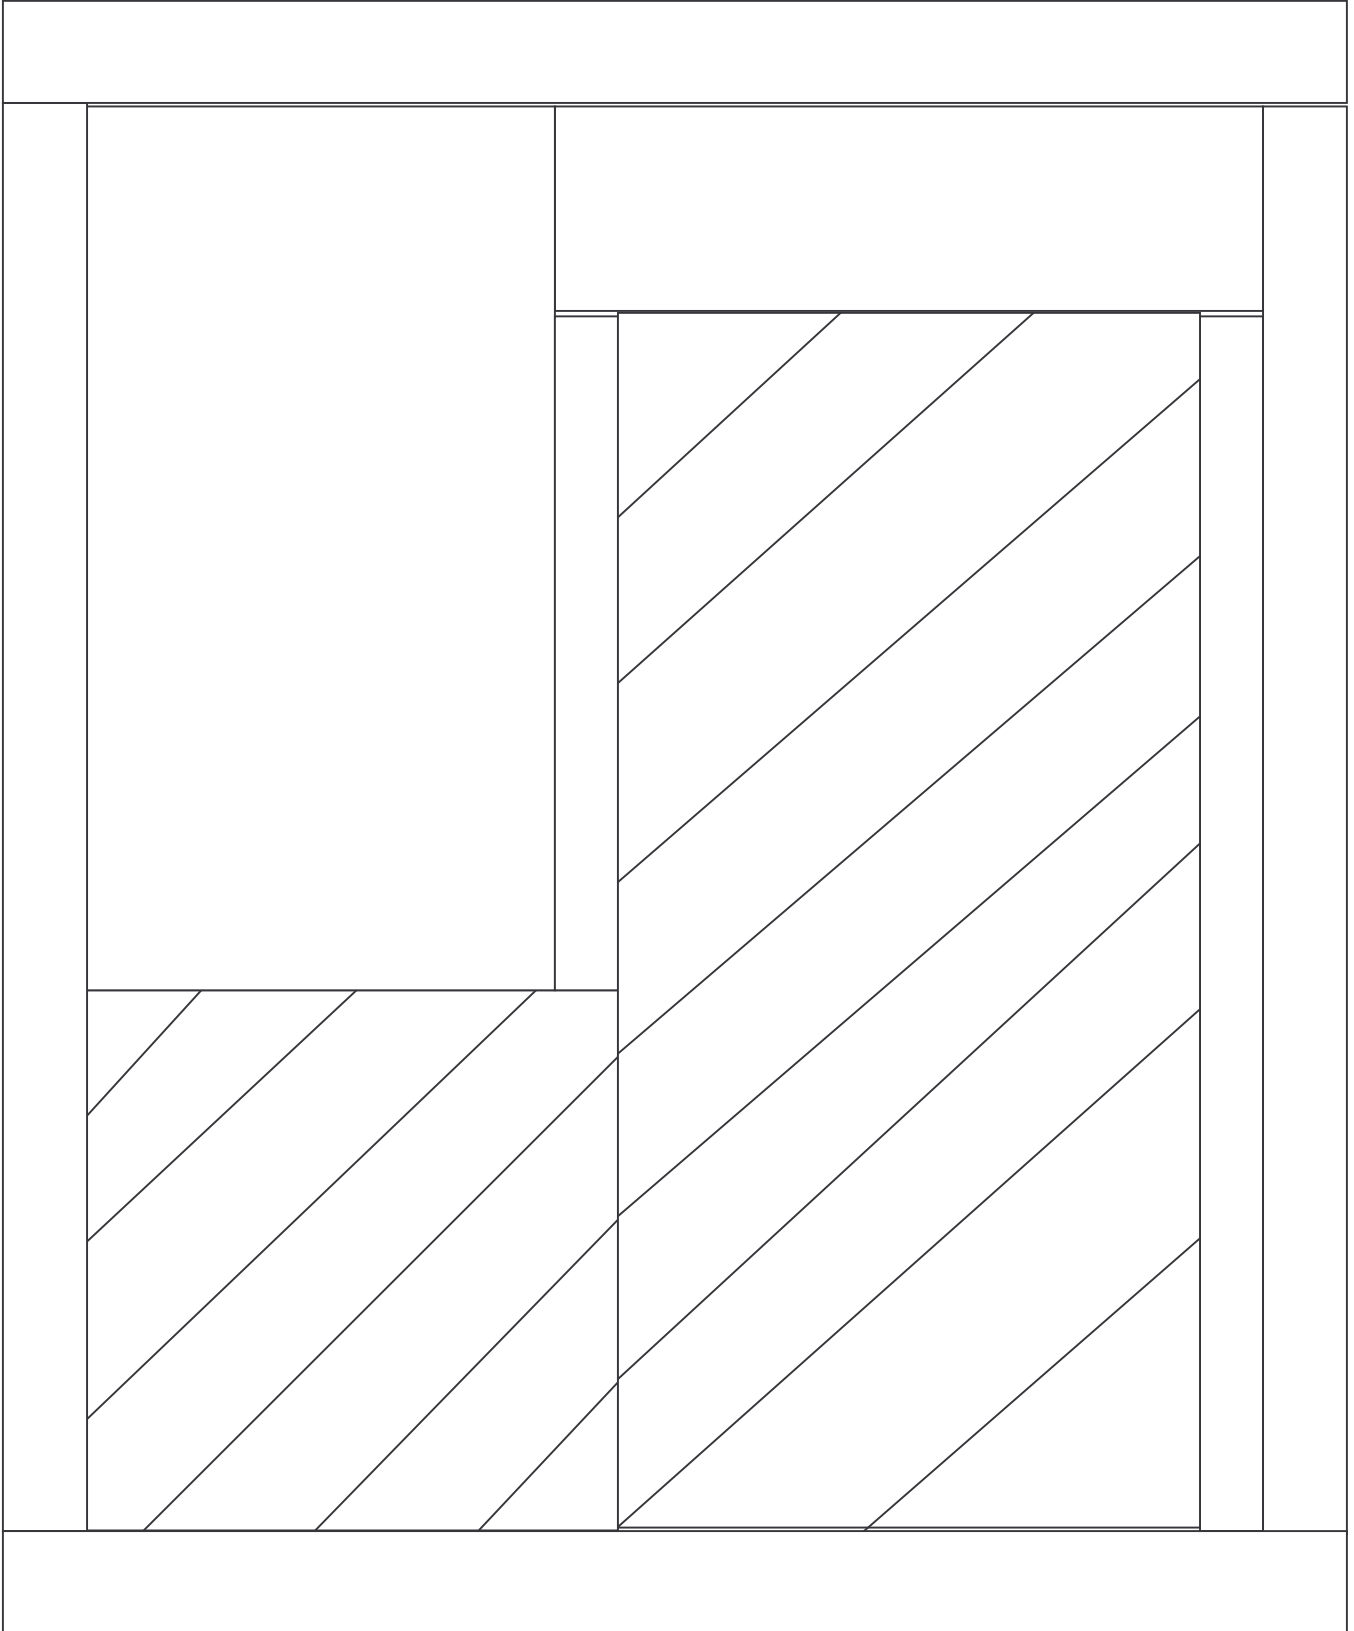

Add a quilt pocket to the top back and you are done and ready to hang for the holidays.
