

Strawberry Pincushion

Cut 2 Strawberry patterns from red felt or wool

Sew (wrong sides) together 1/8" from edge leaving a small opening at the top

Stuff your pincushion (full enough to hold your pins but not over-stuffed !)

Cut 1 leaf pattern from green felt or wool

Cut 1 round stem pattern from brown felt or wool

Put brown stem piece in center of leaf and tack down to pincushion as shown in picture

Add "veins" to leaf with brown or green floss. This will help to hold down the leaf on your pincushion.

Add some 'seeds' to the strawberry to give it dimension.

You can add some ribbon for a "fob" to the center of the stem piece
